To Whom It May Concern

RE: RGD & Associates, Inc. Letter of Recommendation

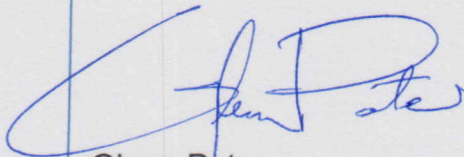

To Whom It May Concern:

I would like to highly recommend RGD & Associates, Inc for mechanical, electrical and plumbing engineering design services. RGD has completed a number of projects with our office. Their services were timely and they worked closely with our office to maintain the budget. RGD meets deadlines with quick turn around of submittals and shop drawings as well as expedited construction administration services.

We would not hesitate to recommend using RGD & Associates, Inc. for mechanical, electrical, and plumbing design engineering services.

Sincerely

Pate Architecture
